

The above-described amendments are needed for proper disclosure and require no substantial amount of additional work on the part of the Patent Office. See MPEP 714.16. The amendments do not effect the scope of the claims, and thus no additional search is needed.

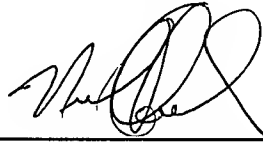

In general, the above-described amendments cure typographical errors recently discovered in the specification and claims. The first two amendments to the specification are typographical errors. Support for the new structure of Formula II-1 exists on pages 15 and 16. The second two amendments to the specification correct typographical errors in the amendment filed August 30, 1993. The amendments to claims 1 and 10 also correct typographical errors.

In the event minor issues remain in the prosecution of this application, Applicants request the Examiner call the undersigned attorney. If any fees are required for the filing of these papers, Applicants request the Commissioner to charge those fees to deposit account #18-0988.

Respectfully submitted,

RENNER, OTTO, BOISSELLE & SKLAR
